SUMMARY/OBJECTIVE

Dedicated front-end developer with a passion for problem-solving and a commitment to continuous improvement. I prioritize understanding client challenges and user needs, building applications that align with both technical and business goals.

SKILLS

Languages: HTML5, CSS3, JavaScript, Typescript
Libraries/Frameworks: Angular, React, React Native, Node.js, Express.js, Redux, Bootstrap
Others: Git, GitHub, SQL, MongoDB, Mongoose, Sass, Postman, Figma, Responsive Web Design

PROJECTS

Fairhaven Yachts | <https://www.fysyachts.com/> | [GitHub](#)

- Conducted thorough research on top competitor websites to inform design and functionality decisions.
 - Designed a responsive user interface in Figma, ensuring optimal user experience across both desktop and mobile devices.
 - Recommended and implemented the integration of the YachtWorld API to display yachts directly on the site, enhancing user retention and improving SEO performance.
 - Prioritized accessibility by implementing semantic HTML, improving site usability for all users.
 - Deployed the website using Heroku.
- Tech Stack:** React, SCSS, YachtWorld API
Development Time: 1.5 months

EventLite (Group Project) | <https://react-eventlite.herokuapp.com/> | [GitHub](#) | [Demo](#)

- Designed and developed a full-stack Eventbrite-like application where users can create accounts and purchase event tickets.
 - Coordinated with a team of three using Agile methodologies, contributing to both frontend and backend development.
 - Integrated PayPal for secure and efficient payment processing, allowing users to purchase event tickets directly through the platform.
- Tech Stack:** React, Redux, Node.js, Express.js, MongoDB, React-Bootstrap
Development Time: 1 month

EXPERIENCE

Freelance Web Developer

Kico Design | Seattle, United States | April 2024 - Present

- Create wireframes, mockups, and prototypes with Figma to visualize and refine design concepts.
- Design user-friendly interfaces using HTML, CSS, and JavaScript frameworks like React and React Native to ensure seamless user experience across devices.
- Manage project timelines, milestones, and deliverables, ensuring timely delivery of high-quality work by effectively communicating with clients and addressing feedback.

Web Development Fellow

Kal Academy | Web Development Full Stack Development | March 2023 - July 2023

- Developed dynamic website projects using MEAN Stack, both collaboratively and independently.
- Performed thorough code reviews, debugged issues, and resolved merge conflicts on GitHub.
- Led daily stand-ups, effectively delegated tasks and assisted other teammates to complete their tasks.
- Delivered team projects and individual projects ahead of schedule consistently while maintaining a 10/10 grading for all assignments.

EDUCATION

Kal Academy | Remote | March 2023 - July 2023

Web Development Full Stack Bootcamp | Remote, United States

Central Washington University | Ellensburg, WA | Graduated in 2007

Bachelors of Science in Information Technology and Administrative Management
